TWO WAYS TO WORK WITH US

01 · IP DEVELOPMENT

Your IP, extended.

You own the IP. We build the team around it: a dedicated feature team assembled and run through every phase, from concept to release.

You keep the rights. We carry the production.

02 · IP SOURCING & PACKAGING

Nordic IP, ready to invest in.

We identify Nordic IPs and teams with global potential and do the work that makes them investable before you commit capital.

We deliver a package built for your approval process. Secured. Structured. Ready to invest.

WHAT THE PACKAGE CONTAINS

IP rights & chain of title

Ownership, agreements, licenses and third-party dependencies mapped.

Corporate & deal structure

Domicile and contract language ready for legal and investment committee review.

IP carrier type

Character, story, world, image, sound, voice, system, tone, signature, licensing, ritual and place. What this means for brand and media expansion.

Playable proof

A vertical slice, prototype or playable demo.

Team assessment

Capability, capacity, pace, key-person risk and development gaps.

Cultural translation

We analyze and document how Nordic IPs translate to international markets.

COMMERCIAL MODELS

Retainer

Ongoing IP identification and market coverage.

Project budget

Game development, paid against milestones.

Shared upside

Royalty or equity on selected projects where we go in early and carry more of the risk.
