

An award-winning creative production partner in game development.

Klangland is a creative production partner for games. We source and assess talent, assemble the teams and orchestrate creative and technical production. From IP and concept development through production, finalization and live service.

From a single specialist to a complete feature team, we adapt our talent and production capacity to your project. We identify what is needed, curate the right expertise and manage production through delivery.

THREE WAYS TO WORK WITH US

EXTEND

Co-Development

Extend your team with embedded specialists or full feature teams across Audio, Music, VFX, UI/UX, Art, Animation and Tech-dev.

You set the vision. We take ownership of execution.

SCALE

Outsourcing

Scale production without increasing your internal team. We work from your style guides and technical specifications.

We manage and orchestrate production and delivery.

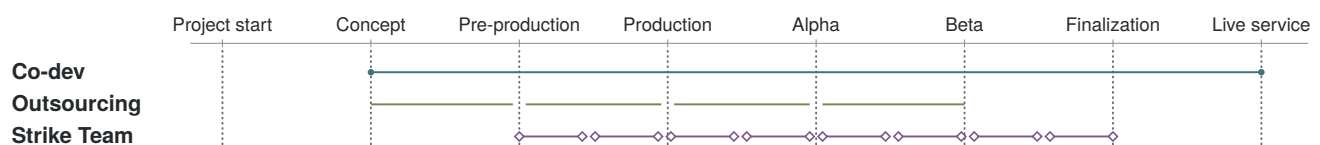

ACCELERATE

Strike Team

Experienced specialists deployed fast during crucial deliveries. We solve bottlenecks, sharpen game feel and deliver critical work.

Focused support under tight deadlines.

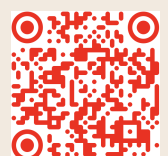

PRODUCTION PHASE

CREATIVE DISCIPLINES
